## Sing Sisters Community Project

You may have seen a video of every one singing the same song. All sung in there own home and on screen in little squares. Well Sing sisters are able to do one of our own. It will be the 'SING SISTERS SONG'. You get to choose which part to sing, rehearse and video yourself singing it (using headphones so all we hear is your voice which will blend into everyone else's voice). I shall make a video of all participants in 2 part harmony. You just learn your bit I do the rest. Keep eyes open for more information over the next week.

In the meantime we have been adaptive here at Sing Sisters and moved online so you can sing from home. It really is helpful to make sure your days include a fun activity.

## Our ONLINE platform

We had our debut LIVE session this week and it was a tremendous hit. 100 registered and so many sent great feedback. You can read what they said here

The live chat allowed us to connect again all in the one place in real time and was a treat for me to still be able to share.

I have put a replay up for you to sing to now @ youtube. It has warm up exercises and songs to sing..
